**Lake Bathurst : incorporating The Lavender Gardens and Woodlawn Bioreactor:**

The Woodlawn Bioreactor, World War II Emergency Fuel Stores, Heritage Display and Lavender Gardens, all in Lake Bathurst, make this day trip a truly unique experience.

**Woodlawn Bioreactor and WWII Fuel Stores:** Waste will become the fuel for producing considerable volumes of landfill gas to generate green electricity sufficient to power a city of 30,000 people for more than 100 years. At Woodlawn our tour guide will explain the whole operation. A visit is also made to the original RAAF Emergency Fuel Stores constructed hastily in 1943 at Lake Bathurst. This historic site with 5 underground Fuel Bunkers built especially for the RAAF, is the only facility of this kind open for inspection in Australia. A small private museum and display has been established on the site.

**The Lavender Gardens:** It features over 500 English lavender plants from which is extracted essential lavender oils that are used in a variety of products.

We will have a chance to inspect the new heritage display at the Lake Bathurst Function Centre. Wander through the lavender gardens to the nearby St John's Anglican Church (1860), with its magnificent stained glass windows. Also peruse the lavender gift shop, which offers a range of lavender based products plus the garden's own loose lavender and essential lavender oil.

**Lunch at The Lavender Gardens Tea Rooms:** Lunch consisting of shepherd's pie with salad, dessert, tea/coffee will be served. Please advise if you have any dietary requirements.

**Goulburn City Guided Tour (on board of coach)**

This guided tour will provide us with a comprehensive overview of this historic city. A guide from Goulburn Visitor Information centre will point to us the sights of Goulburn, revealing the history – or local tale behind many of the landmarks throughout the city. Places of interest include St Savior's Cathedral, NSW Police College, Historic Hotels, Big Merino, Gallows Hill, and the War Memorial including the museum.
